Contents

VOLUME 8, NUMBER 1, MARCH 1983

D. G. APPLIN: Interaction of the neuroendocrine system and ovaries in sheep blowflies, *Lucilia sericata*, sterilized with tepa 1–5

R. R. CARDÉ and T. E. HAGAMAN: Influence of ambient and thoracic temperatures upon sexual behaviour of the gypsy moth, *Lymantria dispar* 7–14

J. C. DAVIS and R. H. GOODING: Spectral sensitivity and flicker fusion frequencies of the compound eye of salmon and wild-type tsetse flies, *Glossina morsitans* 15–23

DAVID L. DENLINGER: Who controls the rhythm of tsetse parturition: mother or larva? 25–28

LINDA C. HAINES: Wind tunnel studies on the effects of secondary sex pheromone components on the behaviour of male Egyptian cotton leafworm moths, *Spodoptera littoralis* 29–40

B. M. OKOT-KOTBER: Influence of group size and composition on soldier differentiation in female final larval instars of a higher termite, *Macrotermes michaelseni* 41–47

TOMOHIRO ONO: Pupation site preference and body orientation of the potato tuber moth, *Phthorimaea operculella* 49–53

R. PREISS and E. KRAMER: Stabilization of altitude and speed in tethered flying gypsy moth males: influence of (+) and (–)-disparlure 55–68

BERNARD D. ROITBERG and RONALD J. PROKOPY: Host deprivation influence on response of *Rhagoletis pomonella* to its oviposition deterring pheromone 69–72

PETER H. SMITH: Circadian control of spontaneous flight activity in the blowfly, *Lucilia cuprina* 73–82

A. ANN SORENSEN, TANA M. BUSCH and S. BRADLEIGH VINSON: Behaviour of worker subcastes in the fire ant, *Solenopsis invicta*, in response to proteinaceous food 83–92

JEAN-PIERRE SUZZONI, LUC PASSERA and ALAIN STRAMBI: Ecdysteroid production during caste differentiation in larvae of the ant, *Plagiolepis pygmaea* 93–96

LOUISE E. M. VET, J. C. VAN LENTEREN, M. HEYMANS and E. MEELIS: An airflow olfactometer for measuring olfactory responses of hymenopterous parasitoids and other small insects 97–106

VOLUME 8, NUMBER 2, JUNE 1983

EDITORIAL ANNOUNCEMENT 107

J. S. KENNEDY: Zigzagging and casting as a programmed response to wind-borne odour: a review 109–120

WILLIAM J. BELL, THOMAS R. TOBIN, GREGORY VOGEL and JAMES L. SURBER: Visual course control of escape responses in the cockroach *Blaberus craniifer*: role of internal and external orientation information 121–132

JOHN A. BYERS: Electronic fraction collector used for insect sampling in the photoperiod-induced diel emergence of bark beetles 133–138

BENJAMIN J. COOK and SHIRLEE MEOLA: Heart structure and beat in the stable fly, *Stomoxys calcitrans* 139–149

TAD N. HARDY and KENNETH C. SHAW: The role of chemoreception in sex recognition by male crickets: *Acheta domesticus* and *Teleogryllus oceanicus* 151–166

JOHN R. HASLETT: A photographic account of pollen digestion by adult hoverflies 167–171

KEIICHI HONDA: Defensive potential of components of the larval osmeterial secretion of papilionid butterflies against ants 173–179

MASAHITO T. KIMURA: Geographic variation and genetic aspects of reproductive diapause in *Drosophila triauraria* and *D.quadraria* 181–186

JOHN R. HASLETT: A photographic account of pollen digestion by adult hoverflies 167–171

KEIICHI HONDA: Defensive potential of components of the larval osmeterial secretion of papilionid butterflies against ants 173–179

MASAHITO T. KIMURA: Geographic variation and genetic aspects of reproductive diapause in *Drosophila triauraria* and *D.quadraria* 181–186

JAMES O. PALMER: Photoperiodic control of reproduction in the milkweed leaf beetle, *Labidomera clivicollis* 187–194

E. R. RUMBO: Differences between single cell responses to different components of the sex pheromone in males of the lightbrown apple moth (*Epiphyas postvittana*) 195–201

J. N. C. VAN DER PERS and C. LÖFSTEDT: Continuous single sensillum recording as a detection method for moth pheromone components in the effluent of a gas chromatograph 203–211

A. D. M. YOUNG and A. E. R. DOWNE: Influence of mating on sexual receptivity and oviposition in the mosquito, *Culex tarsalis* 213–217

BOOK REVIEWS and BOOK NOTICES 219–222

VOLUME 8, NUMBER 3, SEPTEMBER 1983

BETH ALDEN, HUGH DINGLE and BERNARD POSSIDENTE: Diel organization of behaviour in milkweed bugs, *Oncopeltus* spp. 223–230

NANCY E. BECKAGE and LYNN M. RIDDIFORD: Growth and development of the endoparasitic wasp *Apanteles congregatus*: dependence on host nutritional status and parasite load 231–241

D. DE CLERCK and A. DE LOOF: Effect of dietary ecdysterone on protein ingestion and copulatory behaviour of the blowfly, *Sarcophaga bullata* 243–249

JANE LESLIE HAYES and HUGH DINGLE: Male influence on the duration of reproductive diapause in the large milkweed bug, *Oncopeltus fasciatus* 251–256

CHARLOTTE HELFRICH and WOLFGANG ENGELMANN: Circadian rhythm of the locomotor activity in *Drosophila melanogaster* and its mutants 'sine oculis' and 'small optic lobes' 257–272

DAVID G. JAMES and DINAH F. HALES: Sensitivity to juvenile hormone is not reduced in clustering monarch butterflies, *Danus plexippus*, in Australia 273–276

L. P. S. KUENEN and T. C. BAKER: A non-anemotactic mechanism used in pheromone source location by flying moths 277–289

C. E. LINN, JR and W. L. ROELOFS: Effect of varying proportions of the alcohol component on sex pheromone blend discrimination in male Oriental fruit moths 291–306

J. M. PASTEELS, M. ROWELL-RAHIER, J. C. BRAEKMAN and A. DUPONT: Salicin from host plant as precursor of salicylaldehyde in defensive secretion of Chrysomeline larvae 307–314

P. G. SANDERSON and A. K. CHARNLEY: The effect of diet on activity in male *Calliphora vicina* blowflies 315–319

MAKIO TAKEDA: Ontogeny of the circadian system governing ecdysial rhythms in a holometabolous insect, *Diatraea grandiosella* (Pyralidae) 321–331

KOZO TSUCHIDA and NARUMI YOSHITAKE: Effect of different artifical diets on diapause induction under controlled temperature and photoperiod in the silkworm, *Bombyx mori* L. 333–338

JEAN J. TURGEON, JEREMY N. McNEIL and WENDELL L. ROELOFS: Responsiveness of *Pseudaletia unipuncta* males to the female sex pheromone 339–344

SUSAN WOODHEAD: Surface chemistry of *Sorghum bicolor* and its importance in feeding by *Locusta migratoria* 345–352

VOLUME 8, NUMBER 4, DECEMBER 1983

U. BÄSSLER: Influence of femoral chordotonal organ afferences on ecdysis and on the development of motor programmes in locust larvae 353–357

JOHN BRADY and GABRIELLA GIBSON: Activity patterns in pregnant tsetse flies, *Glossina morsitans* 359–369

JOHN L. EATON, K. R. TIGNOR and G. I. HOLTZMAN: Role of moth ocelli in timing flight initiation at dusk 371–375

W. G. FRIEND and J. G. STOFFOLANO, JR: Feeding responses of the horsefly, *Tabanus nigrovittatus*, to phagostimulants 377–383

JIM HARDIE and A. D. LEES: Photoperiodic regulation of the development of winged gynoparae in the aphid, *Aphis fabae* 385–391

H. G. KLEMPERER: Subsocial behaviour in *Oniticellus cinctus* (Coleoptera: Scarabaeidae): effect of the brood on parental care and oviposition 393–402

J. R. LINLEY: Bodily stimulus gradients and precopulatory orientation in the midge, *Culicoides melleus* 403–412

ALAN E. MILL: Behavioural and toxic effects of termite defensive secretions on ants 413–418

ROBERT M. OLBERG: Interneurons sensitive to female pheromone in the deutocerebrum of the male silkworm moth, *Bombyx mori* 419–428

R. W. PIMLEY: Neuroendocrine stimulation of uterine gland protein synthesis in the tsetse fly, *Glossina morsitans* 429–437

W. POWELL and ZHANG ZHI-LI: The reactions of two cereal aphid parasitoids, *Aphidius uzbekistanicus* and *A.ervi* to host aphids and their food-plants 439–443

SARAH J. ROCKEY and DAVID L. DENLINGER: Deuterium oxide alters pupal diapause response in the flesh fly, *Sarcophaga crassipalpis* 445–449

S. J. SIMPSON: The role of volumetric feedback from the hindgut in the regulation of meal size in fifth-instar *Locusta migratoria* nymphs 451–467

M. R. STRAND, S. RATNER and S. B. VINSON: Maternally induced host regulation by the egg parasitoid *Telenomus heliothidis* 469–475

BOOK REVIEW and BOOK NOTICES 477–478
